

The National Leader in Commercial HVAC/R Preventive Maintenance

Patented PleatLink® Filter Service

DESIGNED FOR EARTH

CO₂ Reduction

With a shipping volume ratio of 20:1 compared to traditional box filters, PleatLink® lowers transportation related emissions by up to 67%

Cardboard Free

Eliminating cardboard saves trees and reduces landfill waste, helping us meet Sustainability and Environmental Social Governance goals

1 pallet of traditional cardboard filters

1 bag of PleatLink®

DEVELOPED FOR YOU

Custom Fit

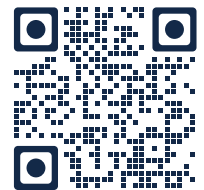

Engineered to integrate seamlessly with any existing commercial HVAC equipment, the PleatLink® tailored frame and continuous filter media minimizes Air-Bypass

Compact Design

PleatLink®'s patented design requires less space in warehousing, logistics, and shipping translating to direct savings for our customers
